In the case that the City of Schenectady receives more CDBG funding from HUD then the amounts in the proposed budget, the City will allocate the additional funding towards the Demolition/ Rehabilitation and New Construction budget line. In the case where funding is less than what was included in the proposed budget, the City will reduce funding from the Demolition/ Rehabilitation/New Construction budget line and all the Public Service Projects as required to ensure budgeted expenses remain below the 15% Public Service Cap. In the case the final funding for HOME or ESG is different from the budgeted amount all projects will be increased or reduced proportionally to the difference between the proposed budget and the final allocations.
